

Voltage tester Volt Detector non-contact, single-pole, 230-1,000 VAC

Order-No.			
37872	4,2	149	76

Application

For determining AC voltages in the low voltage range between 230 and 1,000 VAC.

Standards

IEC 61010-1

Handle

Handy plastic housing with removable cap. Practical clip.

Scale

Bright red LED.

Torque transducer

Protected under the white tip, the sensor provides non-contact recognition of AC voltages within a field of 4 mm.

Measuring category

CAT III 1,000 VAC.

Extra

2 AAA batteries (LR03) are inserted in the voltage tester.
